Why: East Side Outside Community Garden was partly destroyed in the aftermath of the Oct. 2018 fire at 188 1st Ave. We need to clean up and rebuild almost everything from scratch, and are trying to raise funds to help us reopen for the 2020 season. East Side Outside Garden is a public community garden in the NYC Parks GreenThumb program. We offer green space and programs for community members and businesses, provide a learning lab for students at the adjacent schools, and operate a community composting program. Help us rebuild better and stronger!
